

SARS-CoV-2 (COVID-19) Pandemic Response Guide for Ordering Services

VA+ WILL OFFER SERVICES TO CHI HEALTH FACILITIES FROM 1800-0600 AND WORK TO EXPAND CAPABILITIES DAILY

In house resources should be used from 0600-1800 including IR, PICC nurse and resource nurses. Early communication to in house resource nurses for midline requests are encouraged to prevent delay of therapy in your patients. VA+ will only be placing midlines if we are already in-house, and your patients meets midline device criteria.

PICC or Central Line Criteria

- **Sepsis**
- **2 or more antibiotics**
- **Vesicant therapy (pH <5 or >9, or Osmolarity >900)**
- **Only one arm available**
- **Vasopressor therapy**
- **Infiltration of a Midline and unable to establish additional access or obtain lab draws**
- **Multiple PIV infiltrations and cannot maintain access**

Midline Criteria

- **Procedure only and cannot obtain PIV access**
- **Positive Blood Cultures or R/O Blood stream infection and waiting for negative cultures or 48 hours of IV antibiotic therapy**
- **Non-Vesicant or one-time dose IV therapy**
